How to Reach Kelsey-Highlands Nursery

Visitors Welcome!

Kelsey-Highlands Nursery is located at East Boxford, Massachusetts, 28 miles north of Boston, at East Boxford Station, B. & M. R. R. It is readily reached by good automobile roads from any part of New England. From Boston, take either Newburyport Turnpike turning West at Topsfield on Massachusetts Route 97, or Reading Turnpike turning East at North Andover. Other distances are Salem, 13 miles; Lawrence, 11 miles; Haverhill, 9 miles; Newburyport, 10 miles; Manchester, 13 miles; Ipswich, 9 miles; Lowell, 20 miles.

Introductions of Harlan P. Kelsey

In over half a century devoted to the discovery, growing and dissemination of desirable ornamentals, Harlan P. Kelsey has introduced some of America's loveliest garden treasures. One of the most famous of these is the magnificent Carolina Hemlock, (Tsuga caroliniana) of which the late Prof. Sargent wrote: "The handsomest conifer we can grow in New England." At Kelsey-Highlands Nursery you will find the largest supply of superb nursery-grown specimens. Notable Harlan P. Kelsey introductions are

For 1-4 plants of a kind and size use the single rate, 5-24 the ten rate. Ask for special prices on large quantities.

Sargent Juniper (Juniperus chinensis sargenti), a wonderful ground cover.

CONIFEROUS EVERGREENS

The conifers offer a wide variety of size and form. They enliven bleak Winter landscapes with the warmth and color of their rich evergreen foliage; in Summer they seem to bring a sense of quiet and coolness to the garden. For formal or informal hedges, screens or windbreaks they are invaluable.

Care must be used in the choice, location and spacing of evergreens, for many will eventually reach a height of fifty to one hundred feet, while others are dwarf or spreading in habit and suitable for use where space is limited. More plantings are spoiled through crowding than through planting too sparsely—so allow plenty of room for future growth.

NOTE: Figures after the names give approximate heights reached by the trees and shrubs under favorable conditions, first under cultivation, and then in their natural habitat.

caroliniana, CAROLINA HEMLOCK. 30-100 ft.

Unique in habit, with dark, dense tufted foliage on sweeping pendulous branches. This "aristocrat" of evergreens is even hardier than the Canada Hemlock and seems to thrive in some locations where the latter becomes thin, yellow and unsightly. It is better in trying city atmospheres and near the shore.

Photo by H. P. K.

Carolina Hemlock — Tsuga caroliniana

For sheer graceful beauty, we do not believe its equal can be found among all the coniferous evergreens. It was introduced to cultivation by Harlan P. Kelsey, and Prof. Sargent of the Arnold Arboretum considered the Carolina Hemlock "the handsomest conifer we can grow in New England." It is unique in habit, with dark, dense tufted foliage on sweeping pendulous branches. Hardier and more adapted to trying city atmospheres than the Canada Hemlock, it also seems to thrive in southern latitudes where the latter becomes thin, yellow and unsightly.

BROADLEAF EVERGREENS

Andromedas, Kalmias, Leucothoe, Rhododendrons, etc.

No ornamentals have become more deservedly popular than the Broadleaf Evergreens. Their beauty of flower and foliage promises added possibilities in the landscaping of your grounds. All of the species that we list—and most of them are natives of the

United States—are perfectly hardy as far north as Quebec, if given

proper soil conditions and exposure or location.

Mass plantings of Rhododendrons, Mountainlaurel and Andromedas, with "filler" or "edging" plants, such as Leucothoe, Heather, Rose Daphne and Sandmyrtle, are very desirable and probably show these Broadleaf Evergreens at their best. Such ground covers as Bearberry, Canby Pachistima and Japanese Pachysandra carpet the shady

places luxuriantly.

To successfully grow these beautiful Broadleaf Evergreens, see that the soil is peaty, acid and well drained. Use a permanent mulch of Oak or other hardwood leaves (except Maple). A northern exposure is desirable, otherwise overhead leafy shade is essential. Ferns are at home in the Rhododendron bed and edgings of them or of Violets, Dicentras and a host of beautiful low ground covers give variety and beauty. Azaleas and Berrybearing Shrubs may be used freely in the planting with charming effects. We gladly aid customers in making up satisfactory combinations of "fillers" and other plant material for any proposed Rhododendron or Broadleaf planting.

Azaleas

We list only the native and most hardy exotic varieties. These acid-soil loving plants mass well with the broadleaf evergreens and are distinct and beautiful additions to any planting. Though not evergreens they are closely related to the Rhododendrons and require similar soil conditions and care.

THE EXQUISITE

Pinkshell Azalea

(Azalea vaseyi)

Introduced to Horticulture in 1885 by Harlan P. Kelsey, this choicest of native plants was widely heralded as an important addition to our garden flora. The years have added to its popularity, until today it is acknowledged the peer of our finest ornamentals.

The delicate waxy flowers appear before the leaves in early spring, giving a lavish display of breathtaking enchantment in shades of light or deep pink. A specialty at Kelsey-Highlands Nursery, all plants are well budded and will bloom the first season.

BEAUTYBUSH

(Kolkwitzia amabilis)

Introduced from Central China in 1901 by the late Dr. E. H. Wilson, this handsome species was named by him "Beautybush",—"on account of its peculiar charm and fascination."

Flowering in late May or June, its profusion of yellow-throated pink blossoms add refreshing brightness to the shrub border. Eventually reaching 8-10 ft. in height and almost as great a spread, it should be given adequate space for best results.

The Flowering Crabs have few rivals among gorgeous spring flowering trees and shrubs. At the Arnold Arboretum one of the most important events of the year is the blooming of the Crabs, followed by the showy fruit in Autumn. Most varieties are of greatest value as feed in winter for Pheasants. Grouse and other birds. They are of easy culture, and whether planted singly or in masses, give remarkable and quick results. As soon as the ground can be worked in spring is an ideal time for planting, and again in fall after foliage is well ripened. Give rich soil and mulch heavily. Use all the water the soil will take in planting.

The sizes we can supply follow the descriptions of each variety. These prices are for strong plants, well developed for their height. For extra heavy specimens or selected individual plants charge is made to cover increased value.

WASHINGTON ELM.
The late Jackson Dawson, noted Horticulturalist, made grafts from a branch
of the famous Cambridge Elm, under which George Washington took command of the Continental Army in 1775, thus saving for posterity true
descendants of this historic tree, which since has been destroyed. At the request
of the founder of the Arnold Arboretum, the late Professor Charles Sprague
Sargent, we have built up a stock of sturdy trees from this unique and authentic source and offer them at very reasonable prices to tree lovers who
prize such treasures. A numbered certificate of authenticity and a permanent
embossed metal marker is sent with each tree if desired.

canadense, CANADA WILDGINGER. 8-12 in.

April-May. Heart-shaped leaves and small brownish purple flowers.

shuttleworthi, MOTTLED WILDGINGER.

April. Overlapping mottled heart-shaped foliage. Purple flowers. Ideal ground-cover.

Choice Hardy Asters

ASTER

alpinus, ROCK ASTER. 6-8 in.

Lavender-blue in May and June.

linariifolius, SAVORY LEAVED ASTER. 12 in.

Violet blue. A hardy compact native species.

novaeangliae, NEW ENGLAND ASTER. 3-6 ft.

Deep purple flowers in August and September.

novaeangliae roseus, ROSY NEW ENGLAND ASTER. 3-6 ft. August-September. A fine hardy native rose-colored variety.

Named Hardy

An unusual collection of dwarf and tall varieties that will give charming effects in the garden. They bloom in New England during September and October.

ACME

Pale lavender. 13/4 in. diam., 3 ft. high, closely branching.

ALDERMAN VOKES

Distinctive salmon pink. 11/4 in. diam., 21/2 ft. high, 75c each, \$6.00 per 10. AUTUMN QUEEN Lilac, 2 in. diam., 21/2 ft. high, erect. 75c each, \$6.00 per 10.

BARR'S PINK

Bright pink, 11/2 in. diam., 4 ft. high, erect.

BLUE EYES

Blue, $1\frac{1}{2}$ in. diam., 3 ft. high, one of the best. **CHARLES WILSON**

Ruby Red, 11/2 in. diam., about 3 ft. high. Choice and rare. 75c each, \$6.00 per 10.

HARRINGTON'S PINK

New. The first really good pink Aster. Recommended highly by Waltham Field Station of Mass. State College. 50c each, \$4.00 per 10.

HEATHER GLOW Pink. 1½ in. diam., 3 ft. high, rather compact habit.

HON. VICARY GIBBS

Pale lavender, 3/4 in. diam., 21/9 ft. high, compact.

IVY LOGAN

Deep lavender, 11/4 in. diam., 31/2 ft. high.

MRS. DAVIS EVANS

Clear lavender. 11/2 in. diam., 3 ft. high, erect habit, very floriferous.

MT. EVEREST

The best white Aster. 13/4 in. diam., 11/2 ft. high. 75c each, \$6.00 per 10. MT. RANIER

Rare, stately white form of New England Aster. Award of Merit, Mass. Horticultural Society, 1938. 11/4 in. diam., 41/2 ft. tall. \$1.00 each, \$8.00 per 10. NAMED HARDY ASTERS . . . Continued

MULBERRY

So named for its unusual color. Particularly striking effect with white varieties. 11/4 in. diam., 21/2 ft. tall. 75c each, \$6.00 per 10.

SKYLANDS QUEEN Lavender, 1 in. diam., 4 ft. high. Extra fine.

THORA PERRY

Pale lavender, 2 in. diam., 11/2 ft. high, compact habit.

VENUS

Deep lavender, 1/2 in. diam., 11/2 ft. high, compact habit.

WONDER OF STAFA (frikarti)

Lavender, 2-21/2 in. diam. Long flowering season. 50c each, \$1.00 per 10.

NEW DWARF HARDY ASTERS

Splendid for rock garden or borders, rarely exceeding 6-12 inches in height, and covered with flowers in September.

COUNTESS OF DUDLEY

A very charming clear pink with yellow eye. Of dwarf, bushy habit. Late September.

LADY HENRY MADDOCKS

Clear pale pink flowers. Very free flowering and compact in habit. September.

MARIORIE

A charming plant of compact habit, bearing large flowers of a bright rose-pink. Mid-September.

NANCY

Of dwarf bushy habit and very free flowering, the plants being covered with pale flesh-pink flowers toward the end of September.

RONALD

Forms a dwarf bush covered with flowers of a pleasing bright shade of lilac-pink with rose-pink buds. Mid-September.

SNOW SPRITE

Cushions of pure white flowers. Dwarf, compact, bushy. September.

The dwarfest of all and very pretty. Flowers good size—a beautiful clear pale lavender-blue. Early September.

ASTILBE

America. 21/2 ft. July. Lilac. Amethyst. Late June. Deep violet-purple.

Gerbe d'Argent. Pure white.

japonica, JAPANESE ASTILBE. 18 in. July. White.

BAPTISIA

tinctoria, YELLOW WILD-INDIGO. 12-24 in.

Golden pea-shaped flowers in June. Collected plants.

CALOPOGON, SEE ORCHIDS

CALTHA

palustris, MARSHMARIGOLD. 12 in.

April. Yellow flowers. Likes moisture.

CAMPANULA

carpatica, CARPATHIAN BELLFLOWER. 12 in.

All summer. Tufted habit. Bright blue solitary bell-shaped erect flowers. 2 in. across.

carpatica alba, WHITE CARPATHIAN BELLFLOWER.

White flowered form of the above.

rotundifolia, BLUE HAREBELL. 1 ft.

Blue flowers in June and August.

CHELONE

lyoni, PINK TURTLEHEAD. 2-3 ft.

July-September. Rosy-purple flowers; grows well in moist or dry ground.

Jane Kelsey (Hybrid Korean)

Korean Hybrid Chrysanthemums

Introduced by

KELSEY-HIGHLANDS NURSERY

Unique and distinctive for the garden and for cut flowers blooming profusely throughout October and early November. They grow from 2-21/2 ft. in height.

JANE KELSEY

The large single flowers are a lustrous clear deep pink and are borne in great profusion on long stems throughout October and early November. Unsurpassed for garden use, it is equally desirable for inside decoration, lasting as a cut flower in the house two weeks and often longer.

PINK BEAUTY

Lustrous pink semi-double of unusual appeal. For choice garden effects. 50c each, 10 for \$4.00.

Korean Hybrid Chrysanthemums

Introductions of Bristol Nurseries, Inc.

Prices 30c each, \$2.25 per 10 except as otherwise noted.

APOLLO

Shades of bronze-red, old-gold and salmon.

CERES

Combination of old gold, chamois-yellow and coppery bronze.

DAPHNE

Daphne pink with golden stamens in the center.

HEBE Soft lavender-pink with golden yellow center.

INDIAN SUMMER Vivid glowing orange. Large double flowers.

INNOCENCE

Single dwarf. Pure white.

KING MIDAS

Large, fully double soft yellow flowers in profusion. Late September.

LOUISE SCHLING

Semi-double. Glowing salmon-red, changing to soft bronze-salmon.

PIGMY GOLD

New compact dwarf. Clear golden yellow button-like flowers in great profusion.

KOREAN HYBRID CHRYSANTHEMUMS . . . Continued ROMANY

Carmine-red, with fine bronze-red tones. Large double flowers.

SATURN

Brilliant sparkling orange and bronze, golden yellow center.

THE MOOR

Very hardy, with brilliant wine-red flowers, fully double. Late September-October.

VENUS

Lilac-pink with rose-lavender shading.

VULCAN

Opens carmine-red, shades to garnet-crimson and bronze-crimson.

Hardy Fall Chrysanthemums

We offer here three choice new Chrysanthemums, all hardy, all of unusual garden value.

DEAN KAY

A bright clear pink of unusual value. 75c each.

TREASURE TROVE

Clear double yellow, blooming from mid-September on.

ORANGE GLOW

Brilliant burnt orange, blooming from late September.

Hardy Fall Chrysanthemums

EARLY BRONZEEarly flowering, rich bronze flowers. August-October.

JEAN TREADWAY

Compact grower with large pink flowers. September.

RUTH HATTON

Pompon, clear ivory white. October.

RUTH MARION HATTON

Bright canary yellow. Late September.

Rich rosy-crimson. September.

WHITE DOTY

Large heads of pure white pompon flowers. Early October.

Cushion Chrysanthemums

Popular dwarf descendants of AMELIA (Pink Cushion), not over 1 foot high but spreading 2 feet or more across. Covered from September to frost with a glorious mass of double flowers. 50c each. \$4.00 per 10.

BRONZE CUSHION

Deep bronze turning to bronzy coppery yellow.

W RED WHITE CUSHION NEW RED

Pink buds opening to pure white. A brilliant red.

PINK CUSHION YELLOW CUSHION Light pink. Pure golden yellow.

CHRYSANTHEMUM

arcticum, ARCTIC CHRYSANTHEMUM. 18 in. September-October. White aster-like flowers. 2 inches across.

coreanum, KOREAN CHRYSANTHEMUM. 2-4 ft. October-December. This hardiest species was introduced by Harlan P. Kelsey many years ago. It has more recently been used as a parent for the amazing Korean Hybrids. However, the original species with its profuse large white flowers and golden centers is still recognized as one of the most beautiful and effective garden flowers. 35c each, \$3.00 per 10.

maximum, ALASKA. 2 ft.

Pure white flowers 4-5 in. across. All Summer.

CIMICIFUGA

americana, AMERICAN BUGBANE. 3-5 ft.

August-September. Branched racemes of snowy white blooms.

foetida simplex. KAMCHATKA BUGBANE. 3 ft.

Rare species from Kamchatka. Showy white flowers in autumn. 3 ft. 75c each, \$6.00 per 10.

racemosa, COHOSH BUGBANE. 3-8 ft.

July-August. Beautiful foot long racemes of white fluffy flowers.

CLINTONIA

borealis, BLUEBEAD. 6-12 in.

Very showy greenish-yellow flowers in June, followed by bright blue berries.

CONVALLARIA

majalis, LILY OF THE VALLEY. 6-8 in.

Fragrant bell-shaped flowers. One of our best ground-covers for shady places.

COREOPSIS

grandiflora, BIG COREOPSIS. 1-2 ft.

June-Autumn. Masses of golden blossoms.

rosea, ROSE COREOPSIS. 1 ft.

Finely-cut foliage, with dainty rose-pink blooms.

tripteris. 2-4 ft.

Choice native species with bright yellow flowers. Summer and Fall.

CYPRIPEDIUM, see Orchids

DELPHINIUM . . . Larkspur

GIANT PACIFIC HYBRIDS. 3-5 ft.

June-September. Our seed is taken from an unusual select strain. Shades of blue, double and semi-double.

Pot Grown .. \$. 75 each \$6.00 per 10

GIANT WHITE PACIFIC HYBRIDS. 3-5 ft.

June-September. Huge spikes of pure white flowers, double and semi-double. Pot Grown ______ \$1.25 each \$10.00 per 10

DIANTHUS

alpinus. 2-4 in.

Deep rose. Handsome dwarf species. 40c each, \$3.50 per 10.

avernensis, SAND PINK. 3-5 in.

A gem. Beautiful pink flowers rising from closely compacted tufts of bright green foliage. 40c each, \$3.50 per 10.

BEATRIX. 8-10 in.

All summer. Salmon-pink, semi-double flowers profusely borne.

DICENTRA

eximea. FRINGED BLEEDING HEART. 12-18 in.
All Summer. Beautifully cut foliage, dainty rosy-pink flowers.
spectabilis, BLEEDING HEART. 3 ft.

April. Pendant heart-shaped pink and white flowers, 60c each, \$5.00 per 10.

DORONICUM

clusi, DOWNY LEOPARDBANE. 12-18 in.

Large bright yellow flowers. May-June.

subamplexicaulis, WHITLOW GRASS. 6 in.

April. Tufted perennial with alyssum-like flowers.

speciosus, OREGON FLEABANE. 18-20 in.

August. Lilac colored daisy. Splendid for large rock garden.

EUPATORIUM

purpureum, JOE-PYE-WEED. 3-6 ft. Purple flowers in late Summer.

Hardy Ferns

Hardy ferns are very useful for massed plantings, particularly in shady locations. Many varieties can be used for edging shady walks, and some of the smaller types will suitably fill in little nooks in the rock garden. Information on varieties listed and regarding other varieties obtainable will be gladly given.

ADIANTUM

pedatum, AMERICAN MAIDENHAIR.

40c each, \$2.50 per 10.

ATHYRIUM

filixfemina, LADY FERN. 1-3 ft.

DENNSTEDTIA

punctilobula, HAY-SCENTED FERN. 11/2-3 ft.

DRYOPTERIS

clintoniana, CLINTON WOODFERN. cristata, CRESTED WOODFERN. goldiana, GOLDIE FERN. marginalis, LEATHER WOODFERN. noveboracensis, NEW YORK FERN. ½ ft. spinulosa, TOOTHED WOODFERN.

thelypteris, MARSHFERN.

ONOCLEA

sensibilis, SENSITIVE FERN. 1-41/2 ft.

OSMUNDA

cinnamomea, CINNAMON FERN.

40c each, \$2.50 per 10.

claytoniana, INTERRUPTED FERN. 2-6 ft.

40c each, \$2.50 per 10.

regalis, ROYAL FERN. 2-6 ft. 40c each, \$2.50 per 10.

POLYPODIUM

vulgare, COMMON POLYPODY. 3-10 in.

POLYSTICHUM

acrostichoides, CHRISTMAS FERN. 1-11/2 ft.

PTERETIS

nodulosa, OSTRICH FERN.

PTERIDIUM

aquilinum, BRACKEN.

WOODWARDIA

virginica, VIRGINIA CHAINFERN.

FILIPENDULA

rubra, PRAIRIE MEADOWSWEET. 6-8 ft.

Attractive peach-blossom pink flowers.

GAILLARDIA . . . PORTULA HYBRIDS

Red and orange flowers July to October.

GALAX

aphylla, GALAX.

See description and prices under BROADLEAF EVERGREENS, page 13.

GYPSOPHILA

BRISTOL FAIRY. 2-3 ft.

June-August. Improved form. Double white flowers all Summer. 50c each, \$4.00 per 10.

HELONIAS

bullata, SWAMP-PINK. 11/2-2 ft.

Pink or purplish. For bog planting or marshy places. 50c each, \$4.50 per 10.

Iris Cristata at Home in a Rocky Niche.

HEMEROCALLIS

HYPERION, 4 ft.

Large waxy lemon-yellow flowers in July and August. Sweetly fragrant. \$1.00 each, \$8.00 per 10.

HYBRID SEEDLINGS. 2-3 ft.

A choice lot of Daylilies, varying in color of bloom, grown from seed of the best named hybrids. 50c each, \$1.00 per 10.

flava, LEMON DAYLILY, 3 ft.

Fragrant.

fulva, TAWNY DAYLILY. 2-4 ft.

Reddish orange. May-June.

HEPATICA

triloba, ROUNDLOBE HEPATICA. 6 in.

Lovely lavender, blue or white. Spring bloomer.

HEUCHERA

MARY ROSE.

Clear pink. A fine imported variety. 60c each, \$5.50 per 10.

SNOWFLAKE.

Pure white. Probably the best white Heuchera obtainable. 60c each, \$5.50 per 10.

OUEEN OF HEARTS.

Bright red flowers on compact plants. 50c each, \$4.50 per 10.

HOUSTONIA

serpyllifolia, CREEPING BLUETS. 3-5 in.

April-May. Forms little tufts with tiny evergreen leaves. Mass of delicate blue and white flowers.

HOSTA

caerulea, BLUE PLANTAINLILY. 1-2 ft.

July-August. Deep or pale blue.

lancifolia, LANCELEAF PLANTAINLILY. 18 in. August. Lilac. Narrow foliage.

lancifolia variegata, VARIEGATED PLANTAINLILY. Blue flowers. Each leaf with a white border.

plantaginea grandiflora, BIG PLANTAINLILY, 2 ft.

August-September. Glossy light green leaves. Large waxy, white flowers. 40c each, \$3.50 per 10.

IRIS

cristata, CRESTED IRIS. 3-6 in.

May. Exquisite dwarf, pale blue.

cristata alba, WHITE CRESTED IRIS. 3-6 in. May. A rare native. Pure white. 75c each, \$6.50 per 10. pseudacorus, YELLOWFLAG IRIS. 3-4 ft.

May-June. Bright yellow. Tall conspicuous leaves.

siberica, SIBERIAN IRIS. 1-2 ft. Lilac-blue. Slender foliage.

siberica alba, WHITE SIBERIAN IRIS. 3 ft.

June. White.

verna, VERNAL IRIS. 4 in.

June. Blue with yellow beards. Choice. 40c each, \$3.50 per 10.

versicolor, BLUEFLAG IRIS. 20 in.

Native near streams and in swamps. Light purple flowers. Spring and early Summer.

Named Japanese Iris

(Iris kaempferi)

In late June, when other Iris have gone, the brilliant Japanese give radiance to the garden scene. These fine named varieties available at 45c each, \$4.00 per 10.

BLUEBIRD. Single. A lustrous uniform blue of unusual charm. DOMINATOR. Single. Rich indigo-blue, with lighter center. Unusually

FASCINATION. Double. Mauve-pink, lightly veined with white. HARLEQUIN. Single. A vari-colored form of great charm. LILLA COX. Double. A delicate light blue with white veining. MANADZURA. Double. A choice white, veined with blue.

OTOMENEWOOD. Single. A lustrous purple. Fine for mass planting. PURPLE and GOLD. Double. A favorite variety. Violet-purple petals and gold throat.

RED RĬDING HOOD. Single. A glowing amaranth color, veined white. VENUS. Single white with golden throat.

LIATRIS

pycnostachya, CATTAIL GAYFEATHER. 3-5 ft. August-October. Spikes of pale purple flowers. Fine for border. LILIUM

canadense, CANADA LILY. 4 ft. August. Beautiful yellow native lily.

carolinianum, CAROLINA LILY. 3 ft.
Fragrant orange-red flowers in July. Our introduction. 50c each, \$4.00 per 10.

grayi, GRAYS LILY. 1-3 ft.
June-July. Bell-shaped pendulous flowers. A deep reddish-brown outside.
Introduced by Harlan P. Kelsey. 50c each, \$4.00 per 10.

philadelphicum, ORANGECUP LILY. 2 ft. July. Flaring upright red flowers. regale, ROYAL LILY. 4-6 ft.

July. Showy Summer-blooming Lily. The fragrant flowers are 4-6 in. long, white inside, lilac and purple outside. 50c each, \$4.00 per 10.

superbum, AMERICAN TURKSCAP LILY. 4-8 ft.

July. Orange-scarlet to red, spotted inside. tigrinum, TIGER LILY. 2-5 ft.

June-July. Orange-red with purplish-black spots.

Harlan P. Kelsey, Inc., offers a skilled service devoted to the creation of finer landscapes. After a careful study of each individual problem we recommend a development which will fit the particular location so as to combine beauty and convenience with economy of construction and maintenance. Our background of sound designing and horticultural experience assures such results.

LOBELIA

cardinalis, CARDINALFLOWER. 21/2-3 ft.

Red. July-August.

LUPĬNÚS

RUSSELL LUPINS. 21/2-3 ft.

Finest strain of perennial Lupins in the world. Rich variety of colors and intermediate shades. 50c each, \$4.00 per 10.

LYSIMACHIA

nummularia, MONEYWORT. 2-4 in. Fine ground-cover. Intense yellow flowers. June-July.

MONARDA

didyma, MRS. PERRY. 2-4 ft.

July-September. Brilliant scarlet. Improved variety.

OÉNÔTHERA

glauca fraseri, FRASER SUNDROPS. June-October. Pale yellow flowers on 12 in. stems.

Native Orchids

CALOPOGON

pulchellus, GRASS-PINK ORCHID. 12-14 in. June-August. Violet-rose flowers, golden-yellow hairs on lip. Likes moist humus soil. A real treasure for the wild garden or meadow.

CYPRIPEDIUM

acaule, PINK LADYSLIPPER. 12-15 in.

June. Clear pink, with darker pink veinings.

pubescens, COMMON YELLOW LADYSLIPPER. 12-18 in.

May. Bright yellow, large flowers.

spectabile, SHOWY LADYSLIPPER. 12-24 in. May-June. White with pink or rosy-purple shades. Of remarkable beauty. Plant in damp peat or sphagnum bog in partial shade.

GOODYERA

pubescens, DOWNY RATTLESNAKE-PLANTAIN. 12-15 in. July. Yellowish-white flowers in dense spikes rising from white-striped dark green basal leaves. Likes shade.

ORCHIS

spectabilis, SHOWY ORCHID. 6-8 in. May-June. Dainty and rare Orchid with bright pink flowers. Give partial shade.

Dwarf Phlox

PHLOX

amoena, AMOENA PHLOX. 4-6 in.

May-June. Low green mats with deep rose flowers.

divaricata laphami. 12 in. May-June. An improved clear blue form.

ovata, MOUNTAIN PHLOX. 6-12 in.

Bright rosy-red.

subulata alba, WHITE MOSS. 3-4 in.

April-May. Pure white.

subulata brittoni. 4-6 in.

May. Star-like white flowers.

subulata, ROCHESTER. 4-6 in. Fast grower. Large rosy-red or bright rose flowers.

subulata "VIVID," MOSS PHLOX. 3-4 in.

April-May. Vivid clear pink.

Garden Phlox

B. COMPTE. Velvety-red.

BEACON. Brilliant cherry-red. BORDER GEM. Dark purple.

COUNT ZEPPELIN. White, Carmine eye. E. I. FARRINGTON. Salmon pink, white eye.

FRAU G. VON LASSBURG. Pure white. LA VAGUE. Mauve, carmine eye.

MARY LOUISE. Large flowers. Finest white. 50c each, \$4.00 per 10. MISS LINGARD. White, blush center.

RIVERTON JEWEL. Salmon-pink, dark eye. RUTH MAY. Soft pink, dark eye. 40c each, \$3.00 per 10. SALMON GLOW. Rich salmon pink, white and lilac center.

PHYSOSTEGIA

virginiana, VIRGINIA FALSE DRAGONHEAD, 3-4 ft.

July-August. Long spikes of delicate pink.

virginiana gigantea. 4-5 ft. July-September. Mauve-pink.

virginiana, VIVID. 12 in. July-September. Very deep rose.

PLATYCODON

grandiflorum, BALLOON-FLOWER. 18-24 in.

July-September. Deep blue.

SANGUINARIA

canadensis, BLOODROOT. 5 in.

Lovely native herb, blooming in earliest Spring with snow-white flowers. canadensis floraplena, DOUBLEFLOWERING BLOODROOT. Flowers resemble miniature peonies. Very choice and rare. \$1.50 each.

SAXIFRAGA

cordifolia, HEARTLEAF SAXIFRAGE. 12-18 in.

Large thick foliage and purple flowers in April-May. For rockeries.

SEDUM . . . STONECROP

A most useful class of rock-garden material for ground covering and other purposes.

acre, GOLDMOSS. May-June. Yellow.

aizoon, AIZOON STONECROP.

Summer. Yellow to orange. From Japan.

album, WHITE STONECROP. 8 in. Creeping evergreen mat with white flowers. Summer.

borderi. 1 ft.

Red-purple. Late Summer.

oppositifolium, TWO-ROW STONECROP.

Trailing. Pinkish white petals.

reflexum, JENNY STONECROP.

Bright yellow. June-July.

sexangulare, HEXAGON STONECROP. 2 in.

May-June. Similar to acre but more brilliant yellow.

spectabile, BRILLIANT. 18-24 in.

Immense flat heads of brilliant amaranth-red flowers.

stoloniferum, RUNNING STONECROP.

Creeping, flesh-pink. Early Summer.

stoloniferum coccineum, SCARLET RUNNING STONECROP. Scarlet. Early Summer.

SHORTIA

galacifolia, OCONEE-BELLS. (See under Broadleaf Evergreens)

STATICE

montana (Armeria alpina), MOUNTAIN THRIFT. 6 in.

Summer. Deep rose flowers in 3/4 in. heads. Very choice.

pseudoarmeria rubra (Armeria cephalotes rubra). 12 in. Summer. Brighter flowers than preceding.

THERMOPSIS

caroliniana, CAROLINA THERMOPSIS. 4-6 ft.

Long terminal spikes of bright yellow pea-shaped flowers in June or July. Splendid with Delphinium.

THYMUS

vulgaris, COMMON THYME. 8-10 in.

May-June. Lilac or purple flowers.

TRADESCANTIA . . . SPIDERWORT

virginiana, VIRGINIA SPIDERWORT. 2-3 ft.

All Summer. Broad grass-like foliage. Violet-blue flowers.

virginiana alba, WHITE VIRGINIA SPIDERWORT. 2-3 ft.

All Summer. White.

virginiana rosea, PINK VIRGINIA SPIDERWORT. 2-3 ft. All Summer. Pink. 40c each, \$3.50 per 10.

TRILLIUM

erectum, PURPLE TRILLIUM, 12 in.

May. Flowers ox blood-red in color.

grandiflorum, SNOW TRILLIUM.

April-May. Pure white.

stylosum, ROSE TRILLIUM. 12-15 in.

Rosy-pink. Last to bloom. Kelsey Introduction.

undulatum, PAINTED TRILLIUM. 18-24 in.

Late May. White with purple spots at base.

TROLLIUS

europeus, ELEANOR. 11/2 ft.

May-August. Double, clear yellow. 40c each, \$3.50 per 10.

ledebouri, GOLDEN QUEEN. 2-21/2 ft.

May-August. Large bright orange flowers. 40c each, \$3.50 per 10.

VERONICA . . . Speedwell

rupestris, ROCK SPEEDWELL. 4 in.

Blue flowers on a low spreading plant.

spicata, SPIKE SPEEDWELL. 18 in. June-August. Violet-blue.

teucrium, ROYAL BLUE. 1 ft.

Summer. Improved variety with deep blue flowers.

virginiana, CULVERS-PHYSIC. 3-4 ft.

August-September. White to pale blue.

VIOLA

JERSEY GEM. 6-9 in.
April-August. Clear deep blue. Fine long stems.
pedata, BIRDSFOOT VIOLET. 3-6 in.

April-May. Light blue.

pedata bicolor.

The two upper petals deep velvety purple.

YUCCA

filamentosa, COMMON YUCCA.

July. White. Narrow evergreen leaves. Pyramidal clusters of creamy flowers on stalks 3-6 ft. high. Strong clumps. 50c each, \$4.50 per 10.

All Herbaceous Perennials are \$.30 each, \$2.25 per 10, \$18.00 per 100 except as otherwise noted.

List of Plants for Special Environments

PLANTS SUITABLE FOR ROCK GARDENS

EVERY Rock Garden has problems of its own. No list of this nature can in any way be complete—it can merely suggest a few of the varieties that are being successfully used in the finest American Rock Gardens. Herbaceous perennials are not included, as use of the various kinds depends on the type and size of the rock garden. We will gladly make recommendations of perennials to use for given types of rock garden.

Aesculus discolor koehnei Amelanchier stolonifera Arctostaphylos uvaursi Azalea pentaphylla Azalea poukhanensis Calluna, in variety Cotoneaster horizontalis Cotoneaster microphylla Cotoneaster praecox Daphne cneorum Daphne mezereum Dicentra eximia Epigaea repens Erica carnea Euonymus radicans Forsythia ovata Juniperus chinensis sargenti Juniperus communis depressa Juniperus communis montana Juniperus horizontalis Juniperus horizontalis plumosa

Juniperus sabina Juniperus sabina tamariscifolia Leiophyllum buxifolium prostra-Pachistima canbyi Picea, Dwarf Alberta Spruce Pieris floribunda Pieris japonica Pinus mugo mughus Chaneomeles japonica pygmaea Rhododendron catawbiense compacta Rhododendron laetivirens Rhododendron mucronulatum Taxus canadensis Taxus cuspidata (upright form) Taxus cuspidata nana Taxus media hicksi Thuja, American Pyramidal Arborvitae Thuja occidentalis globosa Thuja occidentalis hovevi Vaccinium vitisidaea minor

PLANTS FOR MOIST SOILS

MOST plants will not stand a location that is quite moist a great deal of the time. These varieties, however, do not seem to mind considerable moisture if proper drainage is provided. In many cases it increases their growth and gives them finer foliage. Care must be used in choosing varieties that will best suit your particular location and we are prepared to help you plan correctly.

Acer rubrum Aronia arbutifolia Azalea nudiflora Calopogon pulchellus Chelone Iyoni Cimicifuga americana Clethra alnifolia Cypripedium pubescens Epigaea repens Ferns, in variety Ilex glabra Ilex verticillata Iris kaempferi Iris pseudacorus Iris sibirica

Iris sibirica alba Kalmia angustifolia Leucothoe catesbaei Mitchella repens Nyssa sylvatica Ouercus palustris Salix, in variety Thuia, in variety Tradescantia virginiana Tradescantia virginiana alba
Ulmus americana
Vaccinium in variety Vaccinium, in variety Vaccinium corymbosum Viburnum americanum Viburnum dentatum

PLANTS FOR SEASHORE CONDITIONS

IN PLANTING near the shore it is advisable to select plants that will withstand the attacks of ocean winds and salt spray. Only comparatively resistant kinds are listed here. Many others will do well with slight protection.

Abies concolor Acer rubrum Actinidia arguta Amelanchier, in variety Arctostaphylos uvaursi Berberis, in variety Betula, in variety Calluna, in variety Celastrus orbiculatus punctatus Myrica carolinensis Picea asperata Picea engelmanni Picea glauca Picea jezoensis Picea pungens Picea pungens glauca Picea pungens kosteri Pinus mugo mughus Clethra, in variety Cornus, shrub forms Cotoneaster, in variety Crataegus, in variety Erica carnea Forsythia, in variety Hydrangea, in variety Hydrangea petiolaris Ilex glabra Juniperus chinensis pfitzeriana

Juniperus communis depressa Juniperus horizontalis plumosa Juniperus virginiana Larix, in variety Ligustrum, in variety Lonicera japonica halliana Lonicera morrowi Lonicera tatarica, in variety Malus, in variety Pinus nigra Pinus resinosa Pinus thunbergi Populus, in variety Prunus, in variety Rhamnus, in variety Rhus, in variety Rhododendron laetivirens Rosa, in variety Salix, in variety Sorbus, in variety Spiraea, in variety Taxus cuspidata Taxus cuspidata nana Ulmus americana Vaccinium, in variety Viburnum, in variety Wisteria sinensis

BOG AND WATER PLANTS

BOG gardening is a most interesting phase of horticulture. Most of these plants will also thrive in moist upland soil.

Andromeda glaucophylla Azalea viscosa Caltha palustris Chamaedaphne calyculata Chelone lyoni Cypripedium spectabile Eupatorium purpureum Habenaria, in variety Iris versicolor Iris kaempferi Lobelia cardinalis Rhodora canadensis

Wisteria sinensis alba

PLANTS FOR DRY SOILS

OFTEN it is extremely difficult to find plants that will thrive in soil that is quite dry. These plants are among the best for such situations and when established seem to enjoy well-drained and rather dry soil.

Arctostaphylos uvaursi Calluna, in variety Hypericum densiflorum Juniperus, in variety Phellodendron, in variety Pinus mugo mughus Pinus pungens Pinus resinosa Pinus strobus Pinus sylvestris Prunus maritima Robinia hispida Robinia kelseyi Rosa setigera Symphoricarpos ra

Symphoricarpos racemosus Symphoricarpos vulgaris

PLANTS FOR SHADY PLACES

THE following plants do well in a shady or semi-shady location. Most of them will also thrive in sunny locations. For woods plantings and for those shady spots where even grass does not seem happy you will find these items very useful. Good rich peaty soils are always desirable.

Acer pennsylvanicum Ajuga genevensis Amelanchier, in variety Aquilegia canadensis Arctostaphylos uvaursi Asarum shuttleworthi Aronia, in variety Azalea, in variety Celastrus scandens Chelone lyoni Cimicifuga americana Cimicifuga racemosa Clethra, in variety Clintonia borealis Convallaria majalis Cornus, in variety Corylus americana Cypripedium, in variety Daphne mezereum Diervilla trifida Epigaea repens Ferns, in variety Forsythia suspensa Galax aphylla Hamamelis, in variety

Hydrangea, in variety Ilex glabra Ilex verticillata Kalmia, in variety Leucothoe catesbaei Leucothoe racemosa Ligustrum, in variety Lobelia cardinalis Mitchella repens Orchids, in variety Pachysandra terminalis Rhododendron, in variety Rhus glabra Shortia galacifolia Symphoricarpos racemosus Symphoricarpos vulgaris Taxus, in variety Thuja occidentalis Trillium, in variety Tsuga canadensis Tsuga carolinianum Vaccinium, in variety Viburnum, in variety Vinca minor Zanthorhiza apiifolia

PLANTS FOR AUTUMN COLORING

The plants in this list are especially valuable for the great variety of colors of foliage in Autumn.

Acer ginnala
Acer palmatum
Acer rubrum
Acer saccharum
Amelanchier laevis
Arctostaphylos uvaursi
Aronia, in variety
Azalea arborescens
Azalea vaseyi
Ameplopsis, in variety
Berberis, in variety
Betula papyrifera
Calluna vulgaris cuprea
Clethra alnifolia
Cornus florida

Cornus paniculata
Crataegus cordata
Enkianthus campanulatus
Euonymus alatus
Euonymus radicans carrierei
Euonymus radicans colorata
Leucothoe catesbaei
Nyssa sylvatica
Oxydendrum arboreum
Quercus palustris
Rhododendron mucronulatum
Rhus glabra
Vaccinium corymbosum
Viburnum, in variety

GROUND COVERS

GROUND COVERS are just what their name implies-they cover the ground. Some spread by sending out trailers that take root, some have roots that spread and send up new top growth, and others merely grow more or less procumbent, spreading out as they enlarge to cover a greater area of ground each year. Many, such as the Rose Daphne and the Heathers, have beautiful flowers. The Evergreens and Broadleaf Evergreens carpet the ground with green throughout the year.

May we help you with your selection of a ground cover that will

suit your particular location and conditions.

Ajuga genevensis Ajuga reptans alba Alyssum saxatile compactum Ampelopsis tricuspidata Arctostaphylos uvaursi Asarum shuttleworthi Calluna, Heather, in variety Celastrus orbiculatus Celastrus scandens Chrysanthemum coreanum Convallaria majalis Cotoneastern horizontalis Daphne cneorum Diervilla trifida Erica carnea Euonymus radicans Ferns, in variety

Viburnum dentatum, Blue Viburnum opulus, Red Viburnum pubescens, Blue-black

Viburnum sargenti, Scarlet Viburnum wrighti, Brilliant red

"STANDARDIZED PLANT NAMES" is authority for all names used in this catalog

Kelsey's Horticultural and Landscape Service

Customers of Harlan P. Kelsey, Inc. will find our various branches of service of real value throughout the year. Some special features of this service are described below.

 Renovation of Gardens and Plantations. Overgrown or run down gardens can often be improved immeasurably by readjustment, pruning, fertilization, the addition of a few plants, etc. Let us help you make your

garden more interesting and enjoyable.

2. Hedges, Windbreaks and Screens. The growing of fine material for evergreen and deciduous hedges, windbreaks and screens is a specialty at Kelsey-Highlands Nursery. For protection from harsh winds, for masking unsightly views and to insure privacy the larger screens are often invaluable. Lower hedges and borders are pleasing essentials in many garden designs. We will gladly submit recommendations and quotations for individual problems. A far wider list is available for these uses than is generally supposed. See page 58.

3. Moving Large Specimen Trees. Our tree moving equipment is especially designed for safely transplanting large Evergreens or Shade Trees up to 1 foot in diameter. We have many handsome specimens of Pine, Hemlock, Spruce, Fir and Shade Trees in wide variety from 10 to 30 feet in height. These are moved with large balls with little dis-

turbances to the root systems, largely eliminating risks.

4. Plantings for Birds. Birds add beauty and song to the gardens, and are of greatest value in curbing insect damage. Every garden should include plants that provide natural bird food and cover. We know what these plants are and will gladly help you plan their proper use. Birds are a constant joy and entertainment in the garden—a bird-feeding station in a corner of your garden dedicated to bird life will be a continuing delight. See Page 59 for Berry Bearing Plants.

5. Landscape Service. Harlan P. Kelsey, Inc. offers a skilled service devoted to the creation of finer landscapes. After a careful study of each individual problem we recommend a development which will fit the particular location so as to combine beauty and convenience with economy of construction and maintenance. Our background of sound design-

ing and horticultural experience assures such results.

We are particularly interested in the small home grounds. Consult us freely

whether your problem is large or small.

No charge is ordinarily made for a preliminary conference at our office, or on the grounds where most effective results are ordinarily obtained. If, however, considerable time or distance is involved a minimum charge is made to cover costs.

Prize winning exhibit of Harlan P. Kelsey, Inc. at 1941 Spring Flower Show of the Massachusetts Horticultural Society.

Awarded:

Gold Medal—Given by the New York Horticultural Society for the most beautiful exhibit in the show.

Pewter Trophy—Given by the Massachusetts Department of Agriculture for the best exhibit by a commercial grower.

Gold Medal—Given by the Massachusetts Horticultural Society.

This naturalistic exhibit gained unusual public appreciation for its charm and restraint, the comments of thousands of people being universally enthusiastic.

In this exhibit we tried to demonstrate what any person could do in a similar space in his own garden.

Designed to show the best use of ericaceous and other material in a small area, this simple yet effective treatment can be readily adapted to many varied locations.

If you have landscape problems that experience and imagination will solve, we would welcome an opportunity to make suggestions and estimates.

TERMS AND CONDITIONS OF SALE

Nomenclature. "Standardized Plant Names" is authority for names used

in this catalog.

Prices in this catalog cancel all previous lists and quotations and are subject to change without notice. Retail prices include packing, except for bulky or unusual shaped plants or when special methods are requested; prices are f.o.b. East Boxford, Massachusetts. No charge for local truck delivery on our regular delivery routes and days.

All Orders Are Accepted Subject To prior sale and to condition of stock at delivery date, under the following terms and conditions:

Grade. We supply a standard grade of stock. Unusual specimen material or plants specially selected by customers at the nursery will be charged for according to value, irrespective of the catalog list price.

We Warrant all plants to be true to name, full count, up to grade, and in

good condition when shipped.

Rates. Lots of 5 and 25 of a kind and size will be furnished at the 10 and

100 rates respectively.

Plant Insurance. We do not guarantee the life of any plant purchased, as we have no control over after-treatment or weather conditions, and we will not replace stock without charge. On request, we insure stock planted by us for a specified period at a rate covering the estimated hazard. Such insurance however is void unless account is paid in full within 30 days from date of invoice, except when special arrangements are agreed to by us in writing.

Terms Cash with Order or satisfactory reference from unknown customers. Established credit accounts are due in 30 days from date of invoice. C.O.D. orders must be accompanied by one-third of the amount. Over-

due accounts are subject to interest at 6 per cent.

Shipping Instructions should accompany order. State whether by Freight, Express, Parcel Post or Truck, and give exact destination. Otherwise, we use our best judgment but assume no responsibility thereby. We deliver by truck all over New England and nearby states at reasonable rates. All goods are at purchaser's risk after delivery to forwarding companies in good condition. Claims for damage while in transit must be made against the delivery company.

Claims for errors must be made in writing within five days after receipt of goods. Any mistake or fault on our part will be gladly rectified. Stock

delivered as per order and in good condition is not returnable.
